

HELP Document for Galaxy Society

In the file given to you, you will find one file named as “Society1.zip”. In order to run this project you need to follow below steps.

- 1) Install latest versions of XAMPP, PHPMailer and dompdf from below links.

XAMPP: <https://www.apachefriends.org/download.html>

PHPMailer: <https://github.com/PHPMailer/PHPMailer>

Dompdf: <https://github.com/dompdf/dompdf>

- 2) After installing XAMPP under htdocs folder unzip the folder Society.zip and give “**society1**” as file name.
- 3) Under main XAMPP folder you will find xampp-controll.exe file. Run that and start apache and sql servers.
- 4) After running the servers go to database and import “society.sql” file. This will load all database.
- 5) Go to any web browser and type “localhost//society1/index.php”. Make sure that system is connected to working internet connection.

After running this 5 steps successfully you will be able to see the homepage of the system.

This system has mainly 4 Stack-holders apart from normal users, their login details are as follows:

Stack Holder	Username	Password
President	1-N-15-799/12	deo
Secretary	1-S-12-100/22	sec
Treasurer	1-N-12-799/29	rahil
Office Barrier	1-E-12-799/12	roy

This document and whole project is made by
